About

Software Engineering student at EMSI, specializing in Data Science and AI, with strong experience in building scalable web applications and data-driven systems. Passionate about solving real-world problems through innovative technologies and modern frameworks.

Education

Ecole Marocaine des Sciences de l'ingénieur (EMSI) – Engineering Degree, Computer Engineering 2024 – 2027
Specialized Institute Of Applied Technology NTIC – Technician Diploma, Full-Stack Web 2022 – 2024

Experience

AI Engineering Intern – Orange Maroc, Casablanca Jul – Aug 2026
Working on AI-driven solutions leveraging LLMs, RAG pipelines, and AI agents to support business use cases.
Tech: Python, LLMs, RAG, AI Agents

Engineering Intern – OCP Group, Khouribga Jul – Aug 2025
Built a Technical Intervention Management Platform with RBAC, dynamic dashboards, PDF/Excel exports, chatbot, and admin analytics.
Tech: Next.js, React.js, Tailwind CSS, PostgreSQL, Prisma ORM, Chart.js, jsPDF, XLSX

Full-Stack Developer Intern – 1337 Coding School, Khouribga Feb 2024
Developed full-stack apps with React.js and Laravel. Built a Currency Converter and implemented RESTful APIs.
Tech: React.js, Laravel, PHP, MySQL, REST API

Projects

NeoFraud Sentinel
Graph-powered fraud detection platform using Neo4j to analyze relationships between users, devices, IPs, and merchants.
Tech: Neo4j, Node.js, Express.js, React 18, Vite, Recharts, Cypher, JWT

Technical Intervention Management Platform
Enterprise platform for managing technical interventions with RBAC, dashboards, and reporting.
Tech: Next.js, Tailwind CSS, PostgreSQL, Prisma ORM, Chart.js

Online Hotel Reservation Platform
Hotel booking system with client, hotelier, and admin roles. Invoice generation and email confirmation.
Tech: Django, Python, MySQL, Bootstrap

ModeMen E-commerce Platform
Full e-commerce platform for men's clothing with Clean Architecture, cart management, and Stripe integration.
Tech: ASP.NET MVC, C#, Entity Framework Core, SQL Server

Home Services Platform
Booking platform for cleaning, maintenance, gardening, and pest control services.
Tech: React.js, Laravel, MySQL, Tailwind CSS

Skills

Languages	JavaScript, Python, PHP, SQL/PL-SQL, C/C++, Java, C#, Cypher
Frontend	React.js, Next.js, React Native, Tailwind CSS, Bootstrap, HTML5/CSS3, Vite, Chart.js
Backend	Node.js, Express.js, Laravel, Django, Symfony, ASP.NET MVC, REST APIs, JWT
Databases	PostgreSQL, MySQL, MongoDB, Neo4j, Oracle, SQL Server, Prisma ORM
AI & Data	Machine Learning, Deep Learning, Data Science, Big Data, Business Intelligence
DevOps	Git/GitHub/GitLab, Docker, Postman, Linux/RHEL, Scrum/Agile, JIRA, UML/Merise

Certifications

React Native & React Basics – Meta (Dec 2025) · Software Engineering Design & PM – HKUST (Mar 2025) · Python Web Data – U. Michigan (Mar 2025) · Laravel & PHP – Board Infinity (Mar 2025) · Unix Workbench – Johns Hopkins (Jan 2025) · OOP in C++ – EPFL (Jan 2025) · Negotiation – U. Michigan (Jan 2025) · JavaScript – U. Michigan & HackerRank (2024) · AI for You – Oracle (Mar 2026) · Applications of AI for Anomaly Detection – NVIDIA (Mar 2026)

Languages

Arabic: Native **French:** Full Professional Proficiency **English:** Full Professional Proficiency
